Note 1: Dose-Schedule, leave null. Will send HOA times in field 23

Note 2: Refills and stop dates, fields 10 and 7.
    If Ref Auth = P00 then field 10=254 and field 7=stop date
    If Ref Auth = S00 then field 10=0 and field 7 = stop date
    If Ref Auth = _00 - _99 then field 10 = Ref Auth and field 7 is a calculated stop date.
        Stop date = Start date + (Days Supply X (# of refills + 1 fill))

Note 3: Rxtype. If freq code = P (ie a PRN order) then send 2 other wise see note 6

Note 4: Status. 0=discontinued, 1 = active, 2 = profile only (F5 or F6)

Note 5: Dose-times, send HOA time followed by the qty per dose from the sig. MOT will create a custom dose schedule from this data.

Note 6: Rx Type and other fields.
